PROFESSIONAL SUMMARY

Senior Mobile Engineer and Flutter Developer with 6+ years of experience shipping production-grade Android and cross-platform mobile applications. Delivered 40+ Play Store apps maintaining 0% ANR and 0% crash rate for 5,000+ daily active users. Expert in Flutter/Dart, Kotlin, Clean Architecture, MVVM, BLoC, RESTful/GraphQL APIs, CI/CD, and mobile performance optimization. Available for fully remote roles worldwide.

TECHNICAL SKILLS

Mobile: Flutter, Dart, Kotlin, Java, Android SDK, Jetpack Compose, iOS Deployment, Cross-Platform
Architecture: Clean Architecture, MVVM, MVI, MVP, Multi-Module Projects, Repository Pattern
State Management: BLoC, Provider, Riverpod, MobX, InheritedWidget
APIs and Backend: RESTful APIs, GraphQL, Firebase (Auth, Firestore, FCM, Crashlytics), AWS Kinesis, Google Maps SDK
Performance: Memory Profiling, Startup Optimization, Frame Drop Detection, ANR Elimination, Flutter DevTools
Testing and CI/CD: JUnit, Espresso, Mockito, Widget Testing, GitHub Actions, Fastlane, Firebase App Distribution
Tools: Android Studio, VS Code, Git, GitHub, Jira, Figma, SonarQube, Docker, Google Play Console

PROFESSIONAL EXPERIENCE

Software Engineer II - Android and Mobile | ELD Mandate Biz | Jan 2024 - April 2026 | California, US (Remote)

- Shipped production features for 5,000+ daily fleet drivers across 6 Android apps (HOS, ADAS Dashcam, Dual Dashcam, C18 360, ELD AI, ELD Mandate Portal) - sustaining 0% ANR and 0% crash rate.
- Reduced app load times by ~40% via Android Profiler-guided memory optimization, WorkManager tuning, and efficient Room database handling.
- Built a real-time AWS Kinesis live-streaming pipeline (Media3/ExoPlayer) for ADAS dashcam feeds; developed and maintained shared libraries across 6+ apps to boost team velocity.
- Delivered CI/CD pipelines (GitHub Actions, Fastlane, Firebase App Distribution) and complete Play Store release lifecycle; used GitHub Copilot to achieve 2-3x individual throughput via multi-ticket parallelism.

Flutter Mobile Developer (Freelance) | Independent Projects | 2022 - Present (Ongoing, Concurrent) | Remote

- Actively ship Flutter and Dart cross-platform apps (Android and iOS) for clients alongside full-time employment - spanning e-commerce (PG Store) and on-demand logistics (Apnavan Driver).
- Owned full SDLC independently: UI/UX scoping, Flutter development with BLoC/Provider state management, RESTful API integration, CI/CD setup, and Play Store publication with post-launch monitoring.

Senior Android Developer | Nakshatra Technohub Pvt Ltd | Jan 2023 - Jan 2024 | Nashik, India

- Key contributor to WriterSafeGuard Custodian App - enterprise Android secure-storage app deployed to 18,000+ ATMs across India; achieved PwC security certification.
- Built HubSched from scratch (workforce scheduling Android app with background services and real-time shift management) and published on Google Play Store.
- Led code reviews, enforced quality via SonarQube, and drove Agile/Scrum delivery for multiple enterprise clients in Kotlin and MVVM.

Senior Android Developer | Rhyme Tech Pvt Ltd | Mar 2020 - Jan 2023 | Bangalore, India

- Developed Chitchat - a video-based social Android platform with live streaming, real-time AMAs, and push notifications using Kotlin Coroutines, GraphQL, REST APIs, and Firebase at scale.
- Owned full SDLC (design, Kotlin development, testing, Play Store submission, production monitoring) for multiple high-performance Android applications.

KEY PROJECTS

HOS - FMCSA ELD App (Android) - Kotlin, BLE/GATT, MVVM, Clean Architecture, Room, WorkManager, Coroutines

- FMCSA-compliant offline-first Android app for 5,000+ daily fleet drivers - zero data loss sync via Room and WorkManager; 0% ANR and 0% crash rate maintained in production.

ADAS Dashcam - Live Streaming Android App - *Kotlin, Media3, ExoPlayer, AWS Kinesis, Background Services, FCM, MVVM*

- Real-time AI dashcam with AWS Kinesis live streaming via Media3/ExoPlayer; continuous background recording with FCM incident alerts. 500+ active users, 0 crashes.

PG Store - Flutter E-Commerce App (Android and iOS) - *Flutter, Dart, BLoC, Provider, REST APIs, Payment Gateway, Firebase*

- Full-featured cross-platform Flutter app with product catalog, cart, order tracking, and payment gateway - profiled and optimized with Flutter DevTools; full SDLC through Play Store.

WriterSafeGuard - Enterprise Android ATM Security App - *Android, Kotlin, Secure Storage, MVVM, Jetpack*

- Enterprise secure-storage Android app deployed to 18,000+ ATMs across India; earned PwC security certification - demonstrating compliance-grade, high-stakes Android delivery.

EDUCATION AND CERTIFICATIONS

Bachelor of Computer Applications (BCA) - IGNOU | Expected 2028 | Higher Secondary - Mulajore Sitanath Pathsala

- Google Play Academy - Store Listing Certificate (credential.net verified)
- Advanced Android Development Bootcamp 2024 - Udemy (UC-18c18c38)
- MERN Full Stack Development - Udemy (UC-bc1f9a9d)
